JAY CAPITAL
FUNDING

HOME EQUITY LINE OF CREDIT

Your home's equity, ready when you need it.

Borrow against the equity in your home — and pay interest only on what you actually use.

- **Only pay for what you use**
  Interest applies to the portion you draw. An unused line costs nothing.
- **Draw on your own timing**
  Take what you need, when you need it, not against a date you are guessing at.
- **Keep your first mortgage**
  The line sits behind the loan you already have. Your existing rate is untouched.
- **A clear answer, fast**
  We know which lenders move quickly, and one person stays with your file to closing.
